

Interdisciplinary Lecture

From Invention to patent

Protection and exploitation
of research results

TUM ForTe Patents & Licences in cooperation
with MCTS/Carl von Linde-Akademie

Contents

Practical introduction to industrial property rights
with special consideration of university inventions

In addition to patents, other relevant
areas of intellectual property are dealt with in
detail by experts in the respective fields, namely
design protection, protection of domains and
trademarks, and utility models.

The course will examine the path from the idea
to obtaining the respective property right, its le-
gal enforcement in court, and its economic ex-
ploitation, particularly in the context of spin-offs.
For different technical fields, separate student
groups will then deepen their knowledge of the
patenting possibilities for inventions in their
respective fields using practical case studies.

Dates

Duration: 11 Events
each Monday
Start on October 20, 2025

Time: 5:45 p.m. - 7:45 p.m.

Room: MW 0350
Egbert-von-Hoyer-Lecture Hall
TUM München Campus Garching
(Maschinenwesen)

lecture dates

20.10.2025 | 27.10.2025 | 03.11.2025 |
10.11.2025 | 17.11.2025 | 01.12.2025 |
08.12.2025 | 15.12.2025 | 22.12.2025 |
12.01.2026 | 19.01.2026

The exam will take place on February 2, 2026,
in person.

Credits: 3 ECTS

SWS: 2

Please note: the number of credits that can be
counted toward your degree
depends on the respective
study regulations.

Prerequisite:

Fundamentals of engineering or
natural sciences
